

Safari Rates and Suggested Itineraries

2025
Public Rates

This is more than a rate sheet. It's a manifestation of our safari philosophy at Classic Zambia Safaris. We are camp owners with a life-time of experience in the industry, importantly we are on the ground here too – Owner-Run and Authentic. Whilst we could just show you the dollar price for a bed in a camp, that wouldn't highlight exactly why staying with us here in Zambia would be a truly memorable safari experience. We are far more than just a safari company, and whilst it is impossible to explain it all here we are confident we offer the very best wildlife-focused experiential camps and safaris in Zambia and arguably the region.

1

Suggested Itineraries

Our camps are set in the very heart of the most productive wildlife areas in Zambia. By choosing to join us and our friendly and professional teams you are choosing to support conservation.

These itineraries offer cost-effective solutions to a Zambia-wide safari. Combining our camps across differing national parks brings the very best out of a safari. Our life-time of experience in the industry and in Zambia has been harnessed to offer these suggested combination itineraries.

Fully-costed and ready to book!

2

Easy Logistics

Did you know Classic Zambia has it's own aircraft and offers seat rates flights on various routes across the country? Flexible departure times make connections to international arrivals and departures seamless – with our meet and greet teams on hand at the airports of choice.

We can help with all 3rd party elements outside of our own too, booking for you properties in Livingstone, Lusaka and Luangwa and simply adding these to itineraries and invoices.

It has NEVER been easier to get around Zambia with ease and cost-effectively too.

3

Ethos

Did you know that the founders of Classic Zambia also set-up, funded and continue to run a not-for-profit wildlife conservation project? Musekese Conservation was established in 2017 to help the government in tackling the scourges of illicit poaching. Today the project continues to go from strength top strength thanks in no small part to the tourists that visit us.

On top of this we pride ourselves on the promotion of young Zambians. We invest heavily in areas of our company such as guiding. Kyle, one of the founders continually works on the upliftment and training of a suite of Zambia's finest young conservationists and guides, not just internally but nationally.
